

Siemens EA Customer Association

Date: September 3, 2021

To: Siemens Industry Customers

From: David Harris, SECA President

Re: Siemens EA Customer Association Fall (SECA 58) Conference

As a result of the continuing Novel Coronavirus (COVID-19) pandemic, the SECA Board of Directors has made the decision to hold SECA 58 as a virtual conference. The virtual conference will be held October 12-13, 2021. The safety and well-being of our members are the most important factors we considered in our decision to make SECA 58 a virtual conference.

The SECA Board of Directors would like to express their gratitude to outgoing president Jack Campbell of CenterPoint Energy. Jack provided many years of outstanding service to the SECA Conference and we wish him the best in retirement.

With Jack's retirement, there are now three opening on the SECA Board and volunteers are needed to run for these positions. Serving on the SECA Board is a great opportunity to influence the direction of the organization, to expand and strengthen your professional network, and to improve leadership skills. If you are potentially interested in serving on the SECA Board, please notify David Harris (dgharris@southernco.com) or Verna Adamek (verna.adamek@siemens.com) prior to the conference.

We are planning to conduct a full slate of elections during SECA 58. The SECA bylaws allow a single vote for each member company during the election process so the Board would like to request each member company designate a single voting representative prior to the conference and ensure all other attending members of your company understand they should not vote. This will help ensure a smooth and efficient election process.

Information about SECA and Conference details can be found at www.secaweb.com.

I look forward to seeing you online at SECA 58!

Regards,

David Harris
SECA President
